Armada Hotel Petaling Jaya – Malaysia

INTRODUCTION

6s is a systematic approach for productivity, quality, and safety improvement that is applicable to all types of business. Established by Toyota in the 1950s as 5S, a sixth S has been added to increase the focus on Safety. In addition to Safety, the other five S represent five Japanese disciplines for maintaining visual control at a workplace – Seiri, Seiton, Seiso, Seiketsu, and Shitsuke – that can be translated from the Japanese to Sort, Set in Order, Shine, Standardize and Sustain.

The 6s methodology focuses on having visual order, organization, cleanliness, and standardization. It simplifies and organizes a work environment, and reduces waste and non-value activity, while improving quality, efficiency, and safety. And a well-organized workplace motivates people.

Participants in this one-day training will gain valuable insight into the 6S methodology through theoretical training and hands-on application.

BENEFITS OF ATTENDING

Through training and doing, participants will gain a thorough understanding of the principles and techniques necessary to implement, control, and improve a world-class 6S program. Participants in this one-day training will gain valuable insight into the 6S methodology through theoretical training and hands-on application.

WHO SHOULD ATTEND

This 6S Training program is designed for any individual who is eager to learn and implement lean practices within their respective organizations.

COURSE OUTLINE
